

# Why play a game when you can create it?

## Free STEM enrichment workshop for middle school students

Every student deserves access to a better future. That's why we've launched the Verizon Innovative Learning STEM Achievers program. Join a full-day workshop for an introduction to the immersive program. Students will learn about design thinking, 3D printing, augmented reality and social entrepreneurship.

 The program takes place over a full-day science, technology, engineering and math (STEM) workshop on April 27, 2024 from 11 am to 5 pm.

 Thomas Cole Research Center For Science and Technology

For more information, please contact Robyn Clayton at [stemachievers1988@gmail.com](mailto:stemachievers1988@gmail.com) or 404-880-6638

This program creates a more diverse pipeline for future careers in science, technology, engineering and math (STEM) fields; no prior knowledge or experience is required.

### Program details

- The workshop will take place in-person
- Lunch will be provided
- The workshop is inclusive and welcomes all genders and nonbinary youth
- Free for students
- Programming is open to students from local middle schools
