

Why play a game when you can create it?

Free summer STEM enrichment program for middle school students

Every student deserves access to a better future. That's why we've launched the Verizon Innovative Learning STEM Achievers program— an engaging, hands-on program developed to enrich learning through design thinking, 3D printing, augmented reality, social entrepreneurship and mentorship. This program creates a more diverse pipeline for future careers in science, technology, engineering and math (STEM) fields; no prior knowledge or experience is required.

 The program takes place over the course of one 3-week session. June 10 – June 28, 2024.

 Clark Atlanta University
223 James P. Brawley Drive SW, Atlanta GA 30314
