

Ronald Garlington, Principal
Jean Childs Young Middle School

Spring 2024 College and Career Motivation Week

Dear Community Partners,

You are invited to support Jean Childs Young Middle School students by participating in our College and Career Day on March 1, 2024.

We are excited to provide this enriching opportunity for students to discover and learn about the careers of professionals in their community! The event is intended to encourage and motivate students to do well in school and to start preparing for college and their future careers today!

Each participant will deliver presentations to 4 different classes within your selected timeframe. There will be approximately 20-30 students per session. Students are expected to hear pertinent information about your daily work activities, your education, courses taken in high school, extracurricular school activities, clubs/organizations, other related careers within your area, and any information you believe may be beneficial within the scope of your profession.

If you are interested, please complete the google form before February 16, 2024.

Feel free to share this information about our event with your colleagues, friends, and other professional associates.

If you have any questions, please contact DeRhonda Ward, 8th grade School Counselor. Thank you for your consideration.
