STEM Certification Pathway: Computer Science and AVFT (Audio Visual Film Technology) with utilization of the Georgia DOE STEM Certification Rubric to certification

Our Goals ...

⇒ Become a Georgia STEM certified middle school.
⇒ Utilize the Atlanta Beltline to support a interdisciplinary curriculum integrating the subjects of math, engineering, science, technology, social studies, health and Physical Education.
⇒ Develop business, community, and /or post-secondary partnerships that are ongoing and are involved by directly connecting to in-class instruction, project/problem-based learning, and exposing students to STEM careers.
⇒ Create a viable STEM curriculum and program for students that will allow them to be employed in occupations with the fastest growth such as biomedical engineers, network systems and data communications analysts, and medical scientists.
⇒ Provide Brown Middle School students with skills that will allow them to be employed in one of Atlanta’s major industries, the movie and film industry.
⇒ Develop Brown Middle School students into students with the ability to problem solve, think logically, critically and work as a team.
