

Student Vaccination Rates

Updated: 7/12/2022

Vaccination rate is based on the number of SY2022-2023 students who have been fully vaccinated against COVID-19 (i.e. at least two shots in a two dose series) and enrolled students who are five years old or older as of 7/12/2017. An additional 4% of students across the district have received one dose. The district rate includes enrolled students in traditional, partner, and charter schools. Vaccination data is aggregated from Georgia Registry of Immunization Transactions & Services (GRITS). Schools with 10 or fewer vaccine-eligible students are excluded.
