**SSF REVIEW/
ALIGN
RECOMMENDATIONS**

A GOOD ALLOTMENT MODEL SHOULD...

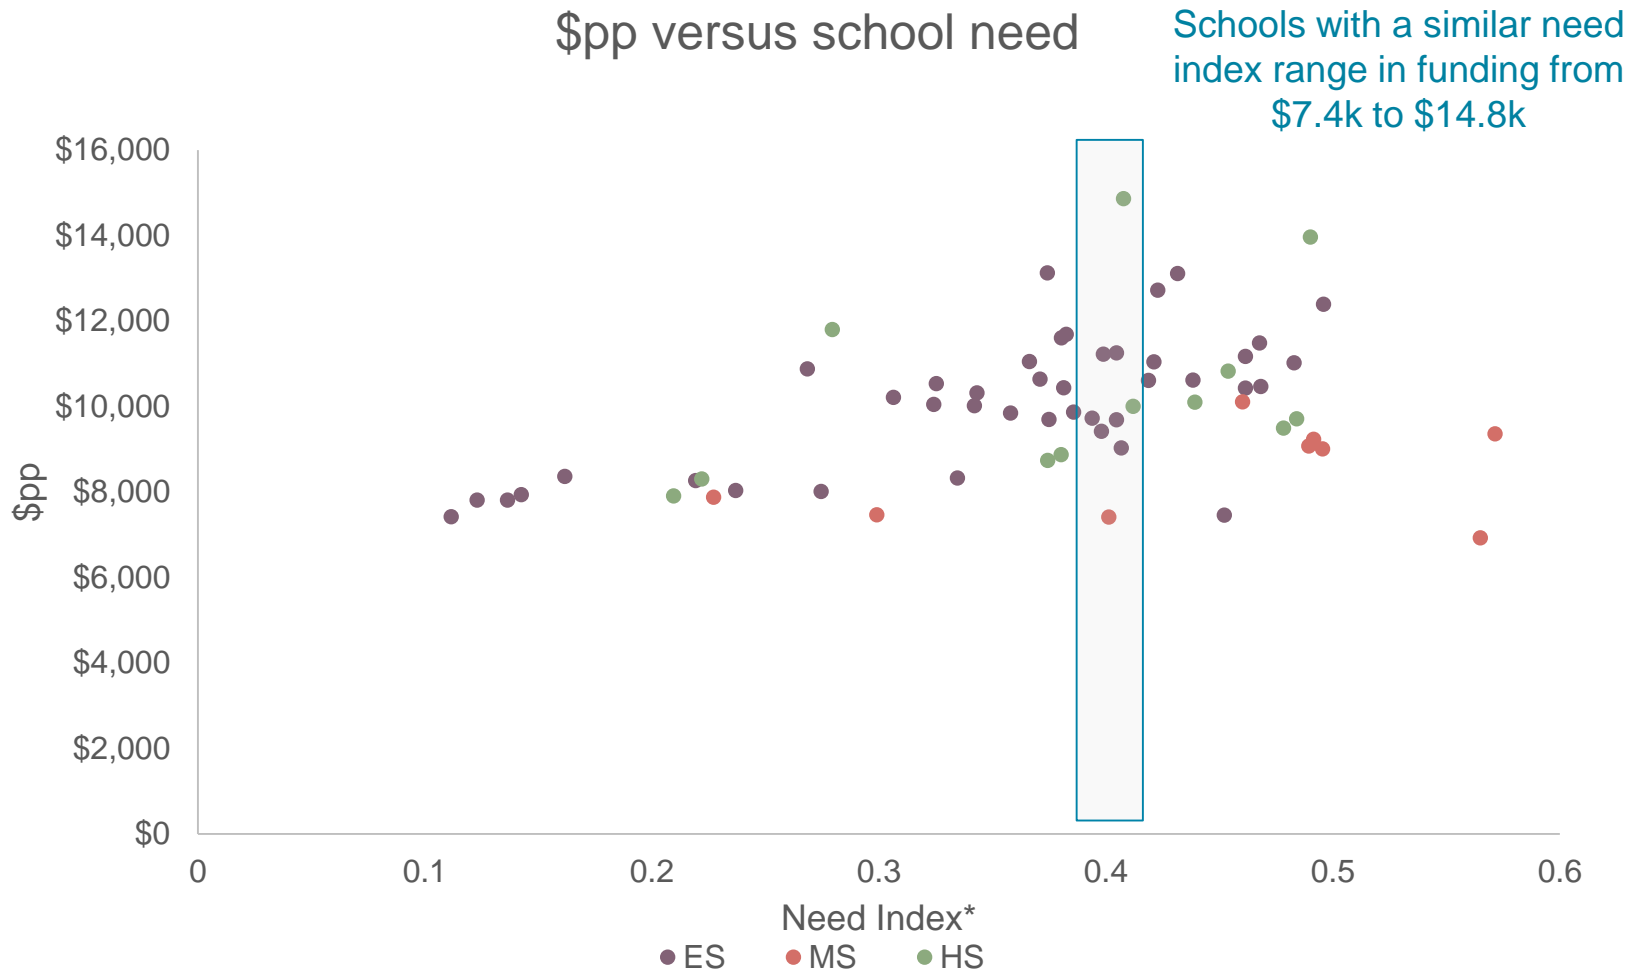

Principle	Description
Student-focused	Provides resources based on students, not on buildings, adults, or programs
Equitable	Allocates similar funding levels to students with similar characteristics, regardless of which school they attend
Transparent	Easily understood by all stakeholders
Differentiated	Allocates resources through a comprehensive framework that is based on student needs
Predictable	School allocation process is predictable and is structured to minimize school-level disruption
Empowering	Empowers school-based decision-making to effectively use resources
Aligned with district strategy	Supports the district's multiyear strategic plan

IN THE OLD MODEL, FUNDING LEVELS VARIED ACROSS SCHOOLS

\$pp by school

AND THAT VARIANCE IS NOT TIGHTLY ALIGNED WITH STUDENT NEED

A COMPLETE SSF FORMULA STRIKES A BALANCE BETWEEN EQUITY AND STABILITY

Stability Strategies:

- Baseline Services ensures all schools are able to provide a minimum level of services
- Transition strategies ensure schools do not see large swings year over year

- Principal
- Assistant Principal
- Secretary
- Counselor

FY19 v FY20 (Total School Funding) Compared to Challenge Index

What we know:

- Significant changes to the SSF formula from FY2019 to FY2020 included phasing in EIP/Remedial, increasing the poverty weight, weighting heavier at elementary for textbook adoption, and de-emphasizing the small school weight.
- All these changes served to shift the “equity” line so that those students in schools with a higher challenge index were allocated more dollars based on need.

FY2021 : Administration Recommendations for More Equity Through SSF

- Establish new average teacher salaries based on need index
- Increase existing equity weights
- Add a weight for concentration of poverty

FY2020 REVENUE IN REVIEW

Category	FY2020 Budget

- **Local-** This revenue source provides the majority of funds for the general fund budget and is made up of both the Fulton and DeKalb tax digests. The majority of these funds come from property taxes but also taxes from utility, motor vehicle, and prior year collections.
- **State-** The states Quality Basic Education (QBE) formula provides the majority of state funding, although some categorical and state grants are also accounted for in this category.
- **Transfer-** This line item represents the transfer in to the consolidated general fund from Title I.

Grand Total	\$371,057,510	100%

What we know:

- APS has aggressively worked to remedy pay parity and to provide a strategic compensation multi-year plan that will continue (pending revenue) into FY2021 budget planning
- Highlights include the following, which will be discussed in more detail at the February Budget Commission Meeting: Cost of living and market adjustments for all employee groups, differentiated compensation for teachers in high needs schools/subject areas, phase two of a three-year plan to convert hourly special education paraprofessionals to full time, teacher career pathway stipends, annual position reclassifications, and pay raises for part-time and substitute staff.

What we don't know: Governor Kemp ran his campaign on \$5,000 teacher raises. In FY2020, he asked districts to give teachers \$3,000 raises, that were partially funded through state QBE earnings. We anticipate he will continue to push towards the originally promised \$5,000 by adding another \$2000 in FY2021

Worker's Compensation	\$4,517,155
Dental Insurance	\$755,821
Life Insurance	\$24,922
Grand Total	\$191,303,298

What we know:

- TRS rates are DECREASING for the first time from 21.14% to 19.06%, a 2.08% decrease! This could return up to \$7 million to the general fund budget.
- State health rates are remaining the same at \$945 per member/per month for both classified and certified employees. The number of employees electing state health during the October OBE may impact the cost to the district.
- The contribution to the city pension plan will increase by the standard 3% from \$56.7 million to \$58.4 million, a cost of \$1.7 million.
- Rates for other benefits and the allocation for workers comp is expected to remain the same.

What we don't know: We are anticipating more discussion of TRS reform during next year's session including the likelihood of action to change TRS to a defined contribution (401K) program. There were multiple pieces of legislation introduced in 2019 that set out to make changes to TRS. We will continue to monitor and discuss in more detail at a future meeting.

While still extremely low, this funding ratio is up from 20% in just two years and because of the aggressive strategy and healthy markets, the fund is expected to be fully funded (assets exceeding liabilities) by FY2028, more than two years sooner than anticipated.
- **District Wide Resources:** Temporary holding account for salary scenarios and levelling reserves. No activity can occur against this account and all funds are distributed by the end of the fiscal year.

What we know:

- APS has made strategic cuts to the central office ranging from \$3 million to \$8 million each year since FY2016 = Total reduction of \$30.60 million.
- Also, many central office funds and functions have been pushed to schools for increased site-based autonomy including textbooks, substitutes, non-personnel, etc.
- We continue to scale down the central office costs on a per pupil basis as students shift from traditional schools to charter or partner schools.
- Central office as a percentage of total general fund budget has dropped from 13.14% in FY2016 to 9.4% in FY2020.
- For FY2021, we will begin to incorporate more of GFOA's best practices in school district budgeting into the department budget development process, with a focus on line-item budgeting.
